Mercy has more than 23 years of doing real estate in the Guadalajara area and her and her team are members of the Mexican Realtors Association (AMPI) and NAR. Her late husband/broker Architect Sergio Duenas, was the past NATIONAL president of AMPI – in 2008. AMPI is the equivalent of the NAR in the US. Mercy is a member of the local MLS – where she shares more than 7,000 properties. My husband Sergio started in real estate as a graduate from the University of Guadalajara in Architecture.

When we married more than 46 years ago – as private investors, we started our career in Real Estate. Later she formed a Global relocation company with her business partner and daughter, Marcela. The Relocation Connection www.relomexico.com has assisted most of the large International corporations in Guadalajara to relocated their executives to our city.
