Mayberry is only a brief commute to the Big Apple. Where do you think Brian Williams lives?

Some say it is not so easy to live in the shadow of the "Big Apple" in a small commuter based community, because it can be a tad overwhelming. Not so for, author, **Suzanne Cooper** who began her career in Risk Management where she served as a Vice President of Operations. Her clients included American Express with whom she worked to develop integrated technology based solutions for account receivable management initiatives. She was also part of a team who helped launch Amex's first internet bank. After 20 years she left to raise her son, care for an elderly parent and manage the

operations of her husband's architectural practice. There she spent 10 years interpreting the unique and often changing zoning regulations that add to the complexity of real estate. Her background in business and architecture along with her research and analytical skills plus a personal drive to be the very best she can be has helped she and her team become real estate leaders in their community. She and her partner, Bernadette are **KW Global Real Estate Specialists**.
